CULTURE TOPIC

One of the most striking features of **Indian classical dance** and is the use of hand gestures.

Speaking in dance via gestures in order to convey outer events or things visually is what **mudras** do.

To convey inner feelings, two classifications of **mudras** (hand/finger gesture) are used in Indian classical dance

Hence as 'hasta' form a distinct coded language which brings a unique poetic element while performing, so too when

abhinaya (traditional facial expressions), pose (attitude), and rhythm complete the language, the dancer may express practically anything and everything to an attentive audience.

Gestures

In **Bharatanatyam**, the Classical Dance of India performed by Lord **Nataraja**, approximately fifty-five root mudras (hand/finger gestures) are used to clearly communicate specific ideas, events, actions, or creatures
